Impact finance for everyday life

GOPARITY

Manuel Nery Nina

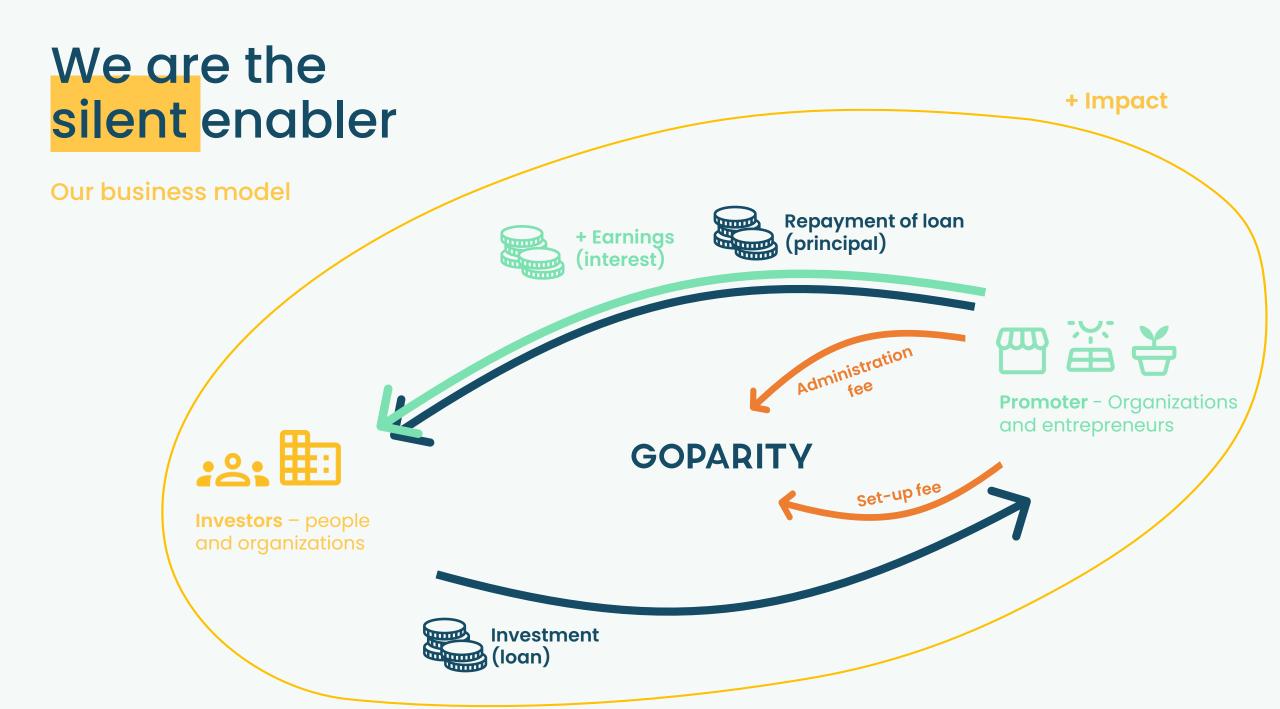

What is Goparity

A daily life **impact finance and investment app** that allows **people and companies** to use their **money for good**.

We operate under the **European Crowdlending Licence**, under supervision of Portugal's Securities
Commission (CMVM – Bank of Portugal).

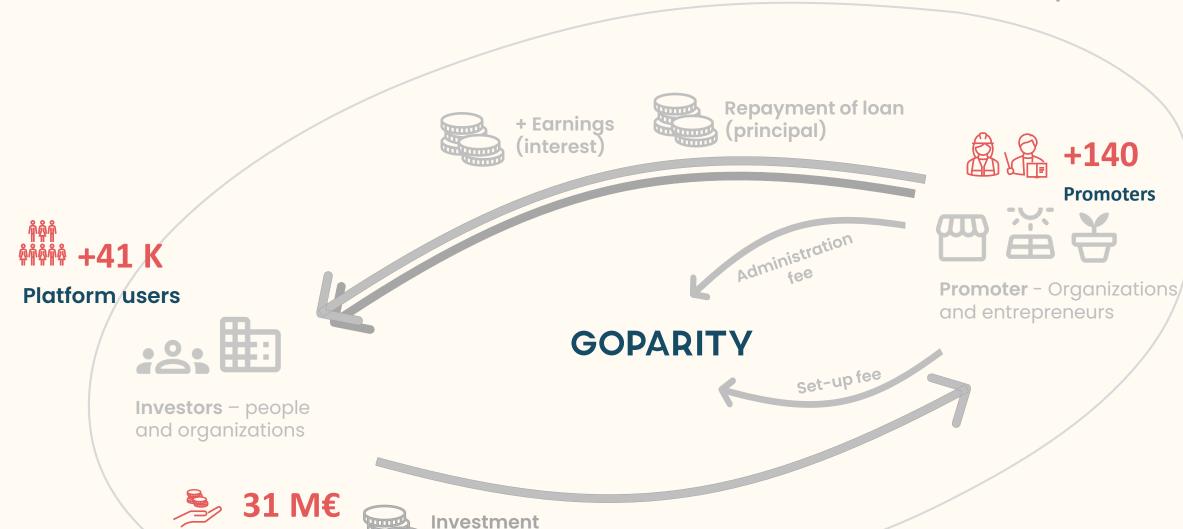

Investors from 65 countries, including Portugal, France, Spain, Italy, Germany, UK, Poland, the Netherlands, etc.

Some numbers

Invested

loan)

The type of projects we fund by impact categories

Water and blue economy

Business in transition

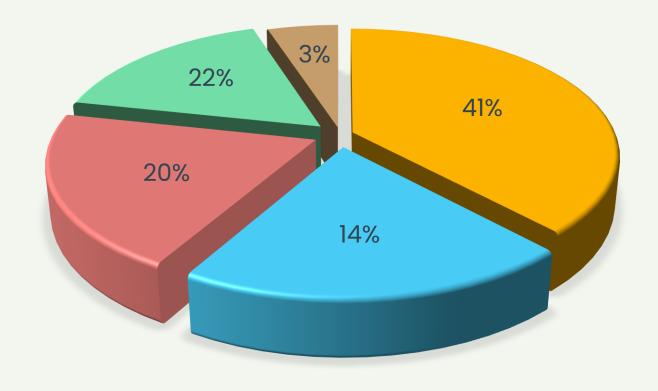

Sustainable energy

Green use of land

Social economy

Community Matters

Private campaigns

Open your community investment only to a restricted group of supporters (citizens and organizations)

Private-first Campaigns

Give the right of first access to your supporters, and then let European supporters of energy and impact join your project

Public Campaigns

Our 41.000 users are eager to hear about your community project and lend you their money

Uma mão amiga e uma kombucha

março 15, 2022, posted in p2p

Num sábado de inverno cheio de sol participei pela primeira vez num evento da **GoParity**. Resumido numa palavra: inspirador!

O evento teve lugar no Founders-Founders, um espaço completamente renovado de co-working dedicado a start-ups, situado perto da estação de comboios de Porto-Campanhã.

ESCOs promoting collective self-consumption

We have co-funded the 100 villages program from CleanWatts in Portugal.

Over 1.000.000€ raised for 15 collective self-consumption systems.

Involvement of 3.000 committed citizenlenders who have received more information on energy communities and solar PV collective self-consumption.

REC – Association of the Friends of Ponterrinhas

- 800 citizen lenders
- 68.900€ raised
- 4 PV plants (140 kW) and a battery pack (30kWh) for collective self-consumption
- Infrastructure work to reactivate a XVIII century gravity watering system (cut 3000 litres/year of diesel consumption)

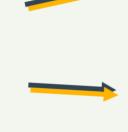

Traditional media Hit the news

Support for media PR

- Co-create campaign
- Prepare the PR
- Reach out to media
- Make it happen

Recentemente, a Nuada, que desenvolveu uma luva inteligente que quer ajudar quem perdeu a mobilidade nas mãos, financiou-se em 560 mil euros através da GoParity e, ao SAPO TEK, Filipe Quinaz, CEO da healthtech portuguesa, conta como é que tudo funciona.

Algarve tem primeiro projeto mundial de amêijoas criadas em alto mar

A empresa Oceano Fresco pretende produzir anualmente 600 toneladas de amêijoas em " lanternas", em mar aberto. Até aqui as amêijoas são produzidas apenas em viveiros, na areia ou lodo.

Congelagos e GoParity juntas na descarbonização da fábrica de processamento de peixe

A empresa de pescado, que quer trazer a sustentabilidade a todas as vertentes da sua atividade, recorre aos investidores da GoParity, plataforma...
